How to set Compatibility Mode

In the upper right corner of the window you will see the following:

1. Click on either the “Tools” dropdown or the gear. This will open a window containing a list of items you can click on.
2. Find the item called “Compatibility View settings” and click on it.
3. The following window opens:

![Compatibility View Settings](image)

4. You need to add hcad.org to the list of websites. If hcad.org is not already listed in the “Add this website:” you can type it in yourself. Then click the “Add” button.
5. At this point hcad.org should be contained in the “Websites you’ve added to Compatibility View”. (see below)
